

CAREER

Being a Discharge support worker, it's an exciting opportunity to be part of a dynamic service offering support to people leaving hospital or at risk of readmission. The postholder will play an intrinsic part in enabling the individual to get home safely, settle back into their own environment and regain and maintain as much independence as possible to keep them living at home safely and increase their sense of wellbeing. This service is self fulfilling, having to see people getting better and discharged for them to go back to their Love ones.

Subsequent, I am in pursuit of my Master's degree in Global Health Management, And the journey has been an educative one so far. I still remember the moment i realized how my future is going to be in Global Health , i didn't Imagined it because it seems rather Impossible. Excitingly as i delve deeper into the complexities of this program, i have gain a comprehensive understanding about the effect and influence in healthcare systems in the World at large.

The Irresistible part is how my work as discharge Support worker and my studies in Global Health care Management compliment and appreciated each other, The raw experience i came in contact with as a Discharge Support worker have Motivated and encouraged me to become more passionate in pursuit of my career in Global healthcare and also to bridge the gap between the

practical aspect and the Theory Aspect.

Studying Global Health management has made me gain an understanding of delivering health care and health education to people with low incomes in developing countries or in places where there is conflict.

This knowledge i have acquired which is still in progress haven't only shaped my understanding in Global health sector but it also enhance my ability to make great and meaningful impact at my place of work as Discharge Support worker. I am well equipped From what i have been taught and the practical knowledge i gain from my Role as a discharge support worker, to develop and implement evidence-base intervention to advocate for equitable healthcare access, impact to the overall well-being of individuals under my Care.

The Systematic practice in which my career and my course of Study in Global health Management has been a great insight to me, I'm inspired with the Experience, knowledge and skills to make a positive Impact to the lives of the people and the World at large.

It's overwhelming having to put together my experience as a discharge support worker through the insight and expertise, I'm gaining from my Studies. I'm intentional in contributing to the development, promoting health Equipment, and providing solution to a sustainable healthcare System to the vulnerable individuals.

Generally, My career as a discharge support worker and my studies in Global Health Management has being a Refinery process, that shape my Vision and drive me to crate a meaningful change accross the Glob in the Global health field.

I'm astonished and words can't Express how grateful I'm, with this Opportunities given to me, to experience the combination of my career and my course of study which is quite related in helping me make a lasting impact to the Needy and the health care system.
